

ELITE IRON GUN OIL AND METAL TREATMENT FOR WEAPONS SYSTEMS AND SOUND SUPPRESSORS.

Formulated for weapons and sound suppressor system applications, Elite Iron GUN OIL & METAL TREATMENT outperforms and lasts longer than any other general purpose lubricant. Use Elite Iron GUN OIL & METAL TREATMENT to promote ease of cleaning metal surfaces and reduce carbon build-up after application. It not only penetrates through extreme buildup, it also treats the metal surface with a polarized layer of oil molecules that reduces friction and wear and retards future corrosion. Elite Iron GUN OIL & METAL TREATMENT provides for the long-lasting, smooth operation of any metal mechanism.

Additional uses:

- Cuts clean-up time in half on machinery.
- Increases drilling, milling and machining job speeds.
- Extends tool, bit and cutting edge life.
- Disperses moisture on ignition and electrical systems, cables, chains, bearings and more.

CAUTION: Do not use near sparks or flame. Contains petroleum distillates. Use in well-ventilated area. If swallowed, do not induce vomiting - obtain medical attention. Avoid repeated contact with skin. If product gets in eyes, rinse immediately, remove any contact lens, continue flushing with water, and obtain medical attention. Do not puncture can, incinerate, expose to heat or store container above 120° F. Overexposure, intentional inhaling or other misuse may be harmful or fatal. Keep out of reach of children. Contains no fluorocarbons.
